Size I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, cousequently they are an admirable remeily for derangements of that organ. Indeed, I have seldom found a case of bilous disease so obstimate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Thysician of the Marine Hospital.

Honored Sir: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralize pures, which ended in chronic rheumatium. Notwithstanding I had the best of physicians, the disease grow worse and worse, until by the advice of your excellent agent in Haltimore, Dr. Mackensis, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well. PRICES with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in initiation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They re hid away in secret places, where it would be impossible to have at their command the proper schanical appliances. It is only by doing a great usiness, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, BADLY MADE, are always liable to get out of or-der, and are sure to cost considerable trouble and

money to keep them in repair.
The qualities to be looked for in a Machine are Cortainty of correct action at all rates of speed, Cortainty of correct action at all rales of speed, simplicity of construction, great durability, and rapidity of construction, great durability, and rapidity of operation with the least labor. Machines to combine these essential qualities, must be made of the best metal and finished to perfection. We have the ways and means, on a grand scale, to do this. The purchasers of Machines, whose daily bread it may concern, will find that those having the above qualities not only work well at rapid as well as slow rates of speed, but last long in the finest possible working order. Our Machines, as mode by us, will earn more money with less labor than any others whether in imitation of ours or not. In fact, they are cheaper than any other machines as a gift.

Messrs, J. N. Harris & Co., Cincinnati, Ohio.
Gentlemen:—I deem it a duty as well as a pleasure, to inform you what Dr. Weaver's Syrup and Cerate has done for me, and hope that this letter may come to the notice of persons similarly afflicted. In the year 1850 I was attacked with tetter, or some kindred disease, on both my legs, which extendad until from my knees to my feet was one raw sore. I consulted and obtained medicines and prescriptions from nearly all the physicians in Also for sale a large number of Town Lets, both here and in the town of Millgrove, with and without improvements, together with several valuable B. and prescriptions from nearly all the physicians in this vicinity, but obtained no relief. Your agent at this place, Mr. Hoffman, recommended me to try the Syrup and Cerate, which I fortunately did, and am now a sound and well man by their use.

With great gratitude, I remain. Yours truly,

JOHN WEIRBAUGHT. Mr. Weirbaught being a well known gentleman Ashland, makes this information most reliable. By taking the Syrup as directed, it will drive the diseases from the system, and when once out on the
